## ADVOCACY EXPERIENCES

Humane Society International (HSI) (4 years and 4 months)

- Country Director overseeing HSI advocacy programs and operations in Brazil. Main accomplishments include key victories in judicial and administrative cases involving animal-welfare issues; meetings with high-ranking government officials and industry representatives; organization of in-person and online events with over a hundred participants; elaboration of written submission for public consultations held by the Brazilian stock exchange market regarding the Sustainability Corporate Index (ISE), and consultations held by the Brazilian Ministry of Agriculture regarding normative resolutions on animal health, welfare and food safety provisions; review and preparation of documents assessing and supporting the development and implementation of animal welfare standards by the World Organisation for Animal Health (OIE), Organization for Economic Co-operation and Development (OECD), G-20; and chairing of the America regional working group of the International Coalition for Animal Welfare (ICFAW).

Inter-American Institute for Cooperation on Agriculture (IICA) (12 months)

- Responsible for assessing the institutional and regulatory framework trends on farm animal welfare policies in Brazil's key trade partners. This demanded a comprehensive study on the legal provisions and government activities of several jurisdictions, with an emphasis on the European Union, the United States, and Australian. The findings were presented in a 50 pages report that also encompassed an overview of initiatives and documents produced by key international intergovernmental organizations such as the World Organisation for Animal Health (OIE), Food and Agriculture Organization of the United Nations (FAO), and International Finance Corporation (IFC). Additionally, I had the responsibility of developing and executing a series of 6 capacity building workshops for government officials of the veterinary service. Over 150 government officials attended the workshop and learned about their legal duties towards animal welfare.

Consortium for the European Project DG SANTE (2016/2016/G2/) (06 months)

- Responsible for assessing the impact of the European Commission animal welfare-related initiatives in the development of animal welfare policies in Brazil. This project entailed the analysis of several documents and stakeholder interviews. The findings were summarized in a 25 pages report that included the opinion gathered among major stakeholders in the field of

farm animal welfare in Brazil on the impact of the Memorandum of Understanding, Sector-Dialogue, Better Training for Safer Food, and other EU supported initiatives.

Brazilian National School of Agribusiness (ENAGRO) (06 months)

- Responsible for developing written material for an online learning platform dedicated to government officials from the Brazilian Ministry of Agriculture. The content elaborated covered the legal and political features of farm animal welfare, the structure and key documents from the EU, WTO, OIE; an overview of private certifications, and the role of the veterinary service in drafting, adopting, and enforcing animal health and welfare provision. The material account for approximately 25 hours of course.

Brazilian Ministry of Foreigner Affairs (Department of Trade Disputes) (03 months)

- Short term internship for elaborating briefs on selected animal related disputes of the World Trade Organization (WTO) and assist in drafting Brazilian position papers in ongoing cases.
